RE: Highland Springs High School Additions and Renovations, Henrico County, VA

Mr. Van Benschoten,

I would like to take this opportunity to express what a pleasure it has been to work with EMC over the past two years and on previous projects. The Project Team for EMC did their part to help ensure that the Highland Springs Project was a success. EMC was a "team player" and was always willing and prepared to provide valuable input with regards to the requirements to complete areas of the school in a timely manner for the school's use. There were minimal interruptions to the schools activities throughout the construction process. The project was a highly coupled phased renovation that required careful consideration of the school's needs along with coordination between the all project stakeholders. This project required team collaboration, flexibility, and an extensive amount of communication. EMC's team was up to the challenge and were truly at the top of their game when information was needed in order to keep the project rolling. EMC played an instrumental role in the success of this project.

Because of the professionalism and hard work ethics they have displayed, I would look forward to working with EMC on future projects.

Sincerely,

A handwritten signature in blue ink that reads 'Catherine F. Underwood'.

Catherine Underwood

Cc: Gary Morgan, EMC
