RE: Westin Hotel at Reynolds Crossing

Mr. Van Benschoten,

It is with great pleasure that I write this letter of commendation to EMC regarding their exemplary performance on the Westin Hotel at Reynolds Crossing project. EMC proved to be a reliable, trustworthy company dedicated to the overall success of the project from its inception until its completion.

EMC worked diligently along with the electrical subcontractor and the design team in bringing this project from prototypical, incomplete drawings to a complete, functional mechanical system suited to the building's needs. Throughout preconstruction, EMC's ideas were at the forefront in terms of design, constructability assessments, and value engineering. EMC's on site staff continued to prove their excellence during the construction process with their dedication to quality customer service. The Westin Hotel project was a successful venture largely due to the integrity, personal character, and professionalism of the team at EMC.

I can confidently recommend EMC as a valuable asset to any project given their "team" approach, their commitment to quality service, and their ability to clearly communicate. Please feel free to contact me should you require any additional information regarding this project or EMC in general.

Best Regards,
